# Fistful of planets part II

## the limited edition box “polysensorial experience”

The pre-orders of this limited edition box are officially open! We need your support to start the production. Consider that the box content is made exclusively for this project and it's the result of a lot of work and energy. I have to collect orders to be able to produce all of this, that's why I ask your support now by purchasing it in advance. The album is actually a work in progress and we are on the final phase, so the sooner I know how many copies I can print, the sooner the boxes will be ready!
